

SHIVANI SHET

Bengaluru, India | shivanishet035@gmail.com | 6360877518 | [LinkedIn](#) | [GitHub](#)

PROFILE SUMMARY

Third-year Computer Science student (CGPA 9.52) at BMS College of Engineering with hands-on experience building full-stack and AI-integrated web applications. Skilled in React, Node.js, and Python, with a track record of shipping deployed, end-to-end projects independently. Seeking a Software Development internship to apply strong problem-solving skills and contribute to real-world engineering teams.

EDUCATION

B.M.S College of Engineering, Bengaluru

Bachelor of Engineering, Computer Science | CGPA: 9.52 / 10

Siddhartha PU College, Bhatkal

Class 12 (AISSCE): 97.5% | Class 10 (AISSE): 97.44%

TECHNICAL SKILLS

Languages: Python, Java, C++, C, JavaScript, TypeScript, SQL

Web & Frameworks: React, Node.js, Express.js, HTML, CSS, Tailwind CSS, Vite

Databases & Backend: MongoDB, MySQL, Supabase, Firebase, REST APIs

Tools & Platforms: Git, GitHub, VS Code, MS Excel/Word/PowerPoint, Canva

Other: English, Hindi, Kannada, Konkani

PROJECTS

FinSight – AI-Powered Personal Finance Platform

[GitHub](#) | [Live Demo](#)

React, TypeScript, Vite, Tailwind CSS, Supabase (Auth + PostgreSQL)

- Built a full-stack finance app for income, expense, and budget tracking with secure Supabase authentication and real-time cloud sync.
- Implemented AI-assisted expense categorization and AI-generated financial insights to surface personalized spending recommendations.
- Designed interactive analytics dashboards (income vs. expense trends, category-wise spending) using a responsive, dark/light-mode UI.

Voice Translator – AI Real-Time Speech Translation App

[GitHub](#) | [Live Demo](#)

React, FastAPI, Whisper, Gemini AI, gTTS, Firebase Firestore

- Developed a full-stack app that records speech in-browser, auto-detects language, translates it, and plays back translated audio.
- Integrated Whisper for speech-to-text, Gemini 2.5 Flash for translation (with Google Translate fallback), and gTTS for text-to-speech.
- Used Firebase Firestore to persist translation history with restore and delete functionality.

Student Complaint Management System – MERN Stack

[GitHub](#) | [Live Demo](#)

React, Node.js, Express.js, MongoDB

- Built a full-stack platform for students to submit and track complaints with a streamlined admin resolution workflow.
- Designed a responsive React frontend and RESTful backend APIs with Node.js and Express.
- Integrated MongoDB for efficient, scalable data storage and retrieval.

CERTIFICATIONS

- Full Stack Web Development – MERN Stack (2025): End-to-end web app development using HTML, CSS, JavaScript, React, Node.js, and MongoDB.
- C Programming Certification (2024): Strong foundation in loops, arrays, functions, and problem-solving.
